

Session One: Recruitment

In your own words, what is courage? Do you have courage? Do you need it?

In the video, Stacy quoted C.S. Lewis, who stated: "Courage is not simply one of the virtues but the form of every virtue at the testing point." What does this mean to you?

Stacy told us "courage is hard and it's scary and it makes your nerves dance and your feet shake, your thoughts race as the fear drips faster and faster into your blood tempting you to run." Do you have what it takes to pursue the attributes of a courageous warrior heart?

Read Numbers 14:5-36. When Moses sent Joshua, Caleb, and ten others into the Promised Land to explore it, the ten others gave a fearful report of the land and its people. Joshua and Caleb stood strong in their faith and encouraged the people to trust God, believing that God was trustworthy. What was the result of unbelief of the people?

What lies ahead of you that requires you to have a courageous heart?

Read Joshua 1:1-9 and listen to God's words to Joshua. Considering that God's Word is also written for you, how does this passage encourage you?

A challenge for you: Speak these words out loud, "***I am a Warrior!***"
